

LETTER/LEGAL

PF-50

Automatic Paper Folder

The new compact paper folder DYNAFOLD PF50 saves your cost drastically. The PF-50 is very rigid but lightweight model, which can be moved anywhere easily by anybody at your office. Color coded folding plate indications will certainly show you to easily set up fold types of International sizes of A4 / A5 as well as of US Letter / Legal papers.

The PF-50 has a paper feed tray stacking 250 sheets, which is considerably good paper stacking capacity for such a small machine.

UP to 3 stapled sheets can be folded at a time by the manual feeding function with convenient back-rest through the top opening.

The PF-50 has a feature of simple push-button operation with digital operation panel. The PF-50 also will stop automatically when the last sheet is fed. Both the retractable paper feeding tray and receiving tray is good solution for space storage.
